

VIRTUAL WINE EXPERIENCE

Join us for the first annual Heart of a Champion virtual wine experience. The event will feature a tasting with Jean Hoefliger, head winemaker and partner of AXR winery. Each ticket will include a bottle of AXR proprietary red wine to taste with the winemaker.

This is a rare opportunity for the wine enthusiast along with supporting two amazing charities. The night will also include a virtual silent auction with some rare Napa Valley wines and experiences.

MEET THE winemaker

JEAN HOEFLIGER

Jean Hoefliger is an artisan inherently driven to push the envelope, continually challenging the cognizance of, not only winemaking, but life in general. With an insatiable appetite for art, philosophy, and a good discussion, Jean thrives when his creativity and passion are left unbound by conventional thinking. Whether in the vineyard, at the winery, home, or around the table with friends - old and new - Jean brings these pursuits alive with playful banter and endearing jokes. In his winemaking, the essence of these experiences is brought to life through a particular craft of winemaking: fundamentally balanced by his experiences in Bordeaux, now left unbridled on the frontier of Napa Valley, making AXR a delectable intersection between the past and future of wine.
